International Business School Pharmacy

Certificate Program

A tailored MBA program for focused organizational development

Exclusive coaching for leaders in the pharmacy

A different approuch.....

In addition to our full MBA program, we offer a flexible Certificate Program: a customized learning pathway composed of carefully selected modules from the university's MBA curriculum.

This program is specifically designed for organizations, institutions, and international partners seeking targeted knowledge development and organizational transformation, without requiring participants to complete a full MBA degree.
In close collaboration with the client, we identify which parts of the MBA curriculum best align with the organization's or country's specific development goals, challenges, and strategic ambitions. The result is a practical and highly relevant learning experience that can be applied directly within the intended transformation process.

The answer is often not more pharaceutical knowledge.The answer is sometimes a different perspective.

Customized in content and structure

The program is fully tailored to your context and can vary in:

- **Content focus**

For example: leadership, change management, strategic innovation, governance, finance, healthcare management, or organizational development.

No interruptions.

Duration and intensity

From compact executive modules to extensive multi-day or multi-month programs.

Delivery format and location

On-site, online, or blended learning.

Outcome

What You Can Expect

- Upon successful completion, participants receive an official certificate as part of the university's MBA program, formally recognizing the completed modules.
- This program enables organizations to invest strategically in capacity building, leadership development, and sustainable transformation — combining the academic quality of an MBA with the flexibility of a fully customized approach.

Led by experienced healthcare innovator

Drs. Peter Felen

International pharmacy leader, educator and management consultant with more than 35 years of experience in pharmacy practice and leadership development. Worldwide. Peter combines deep academic knowledge with a practical understanding of the daily realities facing pharmacists and pharmacy teams. His expertise spans pharmacy management, professional development, organisational leadership, and healthcare innovation, enabling professionals and organisations to translate strategy into measurable improvements and lasting success. CEO of IBS-P.

About IBS-P

IBS-P (International Business School Pharmacy) is dedicated to supporting the professional and personal development of everyone working within the pharmacy sector.

We offer a comprehensive range of training programmes, coaching, and consultancy services tailored to the needs of pharmacists, pharmacy managers, pharmacy owners, support staff, and healthcare leaders. Our programmes range from individual coaching and leadership development to specialised professional courses and fully integrated MBA-level programmes designed specifically for pharmacy professionals.
Our mission is to strengthen leadership, improve collaboration, enhance business performance, and support sustainable innovation within pharmacy practice. By combining practical experience, academic knowledge, and real-world implementation, we help professionals and organisations achieve measurable results while preparing for the future of healthcare.

Whether you are seeking personal growth, leadership development, team improvement, organisational change, or advanced management education, IBS-P provides the knowledge, tools, and guidance needed to succeed in an increasingly complex healthcare environment.

From individual coaching to executive-level pharmacy MBA programmes, IBS-P supports professionals at every stage of their career.
